Docket No. 98N-1265
Food and Drug Administration
5600 Fishers Lane
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS:

I had a hysterectomy 3 yrs ago and use compounded medication to maintain my endocrine system. My compounded prescription reduces my symptoms by treating the cause. Because they are natural and of the same exact chemical composition as what used to be produced by my organs that were removed, I believe I have lower my risks to heart disease + cancer, while feeling much better than I ever did on synthetic estrogens. By being able to choose my pharmacy I get a better cost + can check the credentials of the individual I am dealing with.
